5 THINGS TO DO
to prep for your upcoming Job Fair.

1. **Get your resume reviewed and printed**: Bring several printed copies of your resume and business card to the fair.

2. **Research the companies** you want to meet so when they ask you, “What do you know about my company?” you will be prepared to answer.

3. **Practice your short “Elevator Pitch” out loud** so you can introduce yourself to employers (and answer the most frequently asked question: “So tell me about yourself”).

4. **Formulate excellent questions** (2 to 3) for companies; 1 of which should reflect you’ve done your homework on them.

5. **Dress for success!** Make a professional impression (no jeans, t-shirts, sneakers).
