Directions To Access Student Employment Blackboard Training

Log in to my.iit.edu and click on the Blackboard icon from the top right menu.

Supervisors can self-enroll for the SEO training by going to Blackboard, clicking on "Student" at the top of the page, then "Organizations". They should see a search box. In the search box, they will type "SEO_EPAF_Training".

If it doesn’t show up right away, select “ID” in the organization pull down.

The password is “seo2017”.

Once you are in the organization, click "Groups", then Sign-Up for the appropriate group.
The Video is under “information” and the quiz under “Test Your Knowledge”.

Once you pass the quiz, you will automatically receive access to the EPAF channel and workflow worklist channel within 72 hours.
