Independent Auditors' Report

The Board of Trustees
Illinois Institute of Technology:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Illinois Institute of Technology, which comprise the consolidated statements of financial position as of May 31, 2015 and 2014, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Illinois Institute of Technology as of May 31, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

(1) Summary of Significant Accounting Policies and Reporting Practices

(a) Basis of Presentation

Illinois Institute of Technology (the University) is a private not-for-profit coeducational technical Institution that is dedicated to superior teaching and excellent scholarship. Located in Chicago, Illinois, the University enrolls a diverse student body from across the nation and a number of foreign countries.

IIT India is a private not-for-profit entity headquartered in Bangalore, India. The entity has been created to facilitate IIT's ability to deliver long distance internet-based educational programs to residents of various cities in India.

IIT France is a private not-for-profit entity located in Paris, France. The entity has been created to recruit French and European students to the programs of the University and to welcome visiting students from the University. IIT France was dissolved effective December 16, 2014.

IIT Research Institute (IITRI) is a not-for-profit corporation working for the advancement of knowledge and the beneficial application of science to meet the needs of society. IITRI's articles of incorporation provide that, in addition to its primary purpose, it will support and assist the University, and in the event of dissolution, IITRI's assets would be distributed to the University. Members of the executive committee of the board of trustees of the University are members of the IITRI corporation. Four officers of the University serve ex officio as members of the IITRI Board of Governors. IITRI also prepares separate annual financial statements as of September 30, its fiscal year-end.

The accompanying consolidated financial statements are as of May 31, which have been prepared on the accrual basis of accounting, include the accounts of Illinois Institute of Technology, IIT India, IIT France, and IITRI. All significant intercompany transactions between these entities have been eliminated from the accompanying consolidated financial statements.

(b) Net Asset Categories

The University maintains its accounts in accordance with the principles and practices of fund accounting. Fund accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors.

For financial statement reporting purposes, however, the University's consolidated financial statements have been prepared to focus on the organization as a whole and to present balances and transactions in accordance with donor-imposed restrictions.

Net assets and related activity are classified and reported as follows:

Unrestricted – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted – Net assets that are subject to donor-imposed restrictions that will be met either by actions of the University or the passage of time. Items that affect this net asset category include gifts for which restrictions have not been satisfied and annuity and life income gifts for which the ultimate purpose of the proceeds is not permanently restricted.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

Permanently Restricted – Net assets that are subject to donor-imposed restrictions that require them to be maintained permanently by the University. Items that affect this net asset category include gifts and pledges wherein donors stipulate that the corpus be held in perpetuity (primarily gifts for endowment and providing loans to students) and only the income be made available for program operations, and annuity and life income gifts for which the ultimate purpose of the proceeds is permanently restricted.

(c) **Operations**

Operating results in the consolidated statements of activities reflect all transactions increasing or decreasing unrestricted net assets except those items associated with gifts and income relating to long-term investment, endowment spending and other infrequent gains, losses, revenues, and expenses.

(d) **Revenue**

Revenue is reported as an increase in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or law. Expiration of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled, the stipulated time period has elapsed, and/or amounts have been appropriated by the governing board for expenditures) is reported as reclassifications between applicable classes of net assets.

Private gifts, including pledges, are recognized in the period received. Conditional pledges are not recognized until the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at estimated fair value. Contributions to be received after one year are discounted at an appropriate rate commensurate with the risks involved. Amortization of discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. An allowance for uncollectible pledges receivable is provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of fund-raising activity.

Contributions received with donor-imposed restrictions that are met in the same year as the gifts are received are reported as revenue of the unrestricted net asset class. Contributions of land, building, and equipment without donor-imposed restrictions concerning the use of such long-lived assets are reported as revenue of the unrestricted net asset class. Contributions of cash or other assets to be used to acquire land, building, and equipment with such donor restrictions are reported as revenue of the temporarily restricted net asset class; the restrictions are considered to be released at the time the long-lived assets are placed in service.

Revenue from University government grant and contract agreements is recognized as it is earned through expenditure in accordance with the agreement.

Tuition and other revenue received prior to the end of one fiscal year, which relates to future periods, are recorded as deferred revenue.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

IITRI's research project revenue results from contract research and other services under a variety of contracts, some of which provide for reimbursement of cost plus fees and others, which are fixed-price or time-and-materials type contracts and are reported as grants and contracts revenue on the consolidated statements of activities. IITRI generally recognizes revenue when a contract has been executed, the contract price is fixed or determinable, delivery of the services or product has occurred, and collectability of the contract price is considered probable. Revenue on cost-plus contracts is recognized as costs are incurred and includes a proportionate share of the fees earned. The percentage-of-completion method is used to recognize revenue on fixed contracts based on various performance measures. From time to time, facts develop that require IITRI to revise its estimated total costs or revenues expected. The cumulative effect of revised estimates is recorded in the period in which the facts requiring revisions become known. The full amount of anticipated losses on any type of contract is recognized in the period in which they become known. Under time-and-materials contracts, labor and related costs are reimbursed at negotiated, fixed hourly rates. Revenue on time-and-materials contracts is recognized at contractually billable rates as labor hours and direct expenses are incurred.

Historically, governmental clients have been a major source of revenue for IITRI. For the years ended May 31, 2015 and 2014, these governmental clients accounted for approximately 68% and 59%, respectively, of IITRI's operating revenue of \$17,373 and \$16,119, respectively. Included in IITRI's grants and contracts revenue for 2015 and 2014 and grants and contracts receivable at May 31, 2015 and 2014 are unbilled receivables in the amounts of approximately \$1,318 and \$1,566, respectively.

The amount of grants and contracts revenue reflected in the consolidated financial statements is subject to review and adjustment by contracting agencies, principally, the federal government. The amount, if any, of expenses that may be disallowed by the contracting agencies cannot be determined at this time. It is the opinion of management that such disallowances, if any, will not be significant.

(e) Investments

Investments are reported at fair value. The fair values of investments in stocks, equity mutual funds, bonds, and fixed-income mutual funds are generally determined based on quoted market prices. Direct investments in real estate included in the investment portfolio are recorded at fair value using the income-capitalization and sale-comparison methodology. Management's estimate of the fair value of private equity, venture capital, and hedged fund investments is determined based on net asset values (NAV) provided by the external investment managers, as a practical expedient in measuring fair value. The valuations for these investments involve estimates, appraisals, assumptions, and methods, which are reviewed by the University.

Cash equivalents, consisting primarily of fixed-income securities and money market accounts with original maturities of three months or less, related to endowment funds are classified as investments. Investment transactions are recorded on the trade date. Realized gains and losses on the sale of investments are calculated on the basis of specific identification of the securities sold. Investment management fees and service charges are netted against investment income for financial reporting purposes.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

(f) Notes Receivable

Student notes receivable consist of Perkins loans and University loans. The University establishes valuation allowances for notes receivable based on estimates of future collectability.

(g) Inventory

Inventories are stated at cost, which is determined by the first-in, first-out method for both the University and IITRI.

(h) Physical Properties

The University's and IITRI's fixed assets are recorded at cost of construction or acquisition. The University and IITRI depreciate their land improvements, buildings, and equipment on the straight-line method over their estimated useful lives, which range from 3 to 50 years.

Upon sale or retirement of an asset, a gain or loss is recorded based on the net book value at the time of sale or retirement. Minor expenditures for renovations, construction, and replacement of equipment are charged to current operations and are not capitalized.

(i) Impairment of Long-Lived Assets

The University and IITRI account for long-lived assets in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Section 360 Subtopic 10, *Impairment or Disposal of Long-Lived Assets*. FASB ASC Section 360 Subtopic 10 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

(j) Beneficial Interest in Perpetual Trusts

The University has a beneficial interest in certain perpetual trusts that are held by third parties and are reported at fair value. The University recognizes contribution revenue equal to its proportionate share of the fair value of the trust assets upon notification and determination that its right to receive benefits under the agreement is unconditional. Changes in the fair value of the University's interest in the trust assets are reflected as gains or losses in the period they occur.

(k) Split-Interest Agreements

The University's split-interest agreements with donors consist of irrevocable charitable remainder trusts, annuity trusts, and charitable gift annuities for which the University is either the remainder beneficiary or both the trustee and the remainder beneficiary.

Assets held in trust for which the University serves as trustee are included in investments. In addition, the present value of the estimated future payments to be made to the donors and/or other beneficiaries

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

is reported as an obligation under split-interest agreements. The liabilities are adjusted during the term of the agreements for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

Assets held in trust for which the University does not serve as trustee are not reported as investments in the consolidated financial statements. However, contribution revenue and a receivable are recognized at the date the trusts are established at the fair value of the trust assets, which represents the estimated present value of the expected future cash flows to be received.

(l) *Income Taxes*

The University and IITRI have each received a determination letter from the Internal Revenue Service (IRS) stating that they are exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code except for tax on unrelated business income. It is management's belief that none of its activities have produced material unrelated business income, and that the University has operated in a manner that qualifies it for tax-exempt status.

U.S. generally accepted accounting principles require University management to evaluate tax positions taken by the University and IITRI and recognize a tax liability (or asset) if the University and IITRI have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed tax positions taken by the University and IITRI and has concluded that as of May 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the consolidated financial statements. The University and IITRI are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The University and IITRI management believes it is no longer subject to income tax examinations for years prior to 2008.

(m) *Use of Estimates*

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

(n) *Reclassifications*

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

(o) *New Accounting Pronouncement*

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement – Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)* (Subtopic 820-10). This guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

per share practical expedient. This guidance becomes effective for the University for fiscal years beginning after December 15, 2015, with early adoption permitted. The University retrospectively adopted the provisions of ASU No. 2015-07 during fiscal year 2015.

(2) Investments

Investments consist of the following at May 31:

	2015		2014	
	Cost	Fair value	Cost	Fair value
Cash equivalents	\$ 22,024	22,024	34,034	33,938

Real estate	12,900	8,025	12,900	5,495
Total investments	\$ 227,146	243,584	221,924	247,897

For investment purposes, the University pools substantially all assets of its endowment accounts. Each account owns “units” of the consolidated investment pool. The pooled assets are valued on a monthly basis and a fair value per unit is determined, which is used to calculate the number of units purchased by accounts entering the pool and redeemed by accounts withdrawing from the pool. Income (interest, dividends, and rents) earned by the investment pool is distributed to the individual accounts on the basis of average units owned by each account in the pool during the year. The University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and interest and dividend income. The objective is to provide a stable source of funds to help and support the ongoing operation and activities of the University. The hedge equity, private equity, and venture capital funds are longer-lived, and include an overall investment strategy designed to enhance return and diversify risk. The real estate asset is held for strategic purposes supporting the educational objectives of the University.

Return on investments consists of the following for the years ended May 31:

	2015	2014
Return on investments:		
Interest and dividends	\$ 4,578	4,445
Net realized gain on sale of investments	16,976	10,558
Net unrealized gain on investments	(9,535)	10,426
Net return on investments	\$ 12,019	25,429

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

The return on investments reflects income from investments held by IITRI of \$83 and \$14 for 2015 and 2014, respectively. The net change on investments reported on the consolidated statements of activities includes the permanently restricted gain on the beneficial interest in perpetual trusts of \$89 for 2015 and loss of \$175 for 2014.

(3) Fair Value Measurement

FASB ASC Section 820, *Fair Value Measurement*, defines fair value as the price that could be received for an asset or paid to transfer a liability in the University's principal or most advantageous market in an orderly transaction between market participants on the measurement date.

FASB ASC Section 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. In 2015 and 2014, the University uses the following valuation techniques to measure the financial instruments fair value:

Level 1 consists of financial instruments, such as cash and cash equivalents, bond proceeds, mutual funds, stocks, and money market funds, whose value is based on quoted market prices published by a financial institution or exchange funds, exchange-traded instruments, and listed equities.

Level 3 consists of investments for which there are no active markets. The University has real estate investments and beneficial interests in perpetual trusts as Level 3. The May 31, 2015 and 2014 real estate is valued utilizing the income-capitalization and sale-comparison methodology completed by an independent real estate appraiser. Beneficial interests in perpetual trusts are held by various financial institutions. These values are based on the University's proportionate share of the investments. The fair values of the investments in these trusts are based on quoted market prices published by financial institutions.

The University's interests in alternative investment funds, such as hedged equity mutual funds and private equity and venture capital funds, are generally reported at the NAV, which is used as a practical expedient

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

to estimate fair value, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of May 31, 2015 and 2014, the University had no plans to sell investments at amounts different from NAV. The University has \$18,425 and \$18,931 for 2015 and 2014, respectively, of investments in alternative investment funds, which are reported at fair value. The University has concluded that the NAV reported by the underlying fund approximates the fair value for these investments. These investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the University's interests in the funds. Furthermore, changes to the liquidity provisions of the funds may significantly impact the fair value of the University's interest in the funds.

Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions occur in this limited secondary market, they may occur at discounts to the reported NAV. Therefore, if the redemption rights in the funds were restricted or eliminated and the University were to sell these investments in the secondary market, it is reasonably possible that a buyer in the secondary market may require a discount to the reported NAV, and the discount could be significant. The University has no unfunded commitments relative to the Commonfund and Roundtable private equity and venture capital and hedged equity alternative investments.

Assets Measured on a Recurring Basis

The following tables present information about the University's financial assets that are measured at fair value on a recurring basis as of May 31, 2015 and 2014, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value:

(4) Endowments

The University endowments include both donor-restricted endowment funds and funds designated by the board of trustees to function as endowments. As required by applicable standards, net assets associated with endowment funds, including funds designated by the board of trustees to function as endowment, are classified and reported based on the existence or absence of donor-imposed restrictions.

The board of trustees of the University has interpreted the State of Illinois Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. Notwithstanding the foregoing, this determination is not intended to, and shall not, affect the University's authority under UPMIFA to spend any amounts from an endowment fund on a short-term basis even if the market value of the endowment fund is below the original value of the gifts by the donor. As the result of this interpretation, the University classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment; (b) the original value of the subsequent gifts to the permanent endowments; and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time of accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets as there are specific purpose restrictions that have not been met by the University.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

(a) Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor gave to the University to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets were \$11,075 and \$11,331 as of May 31, 2015 and 2014, respectively. These deficiencies are the result of unfavorable investments returns in prior fiscal years, as well as appropriations deemed prudent, for certain programs, by the board of trustees. Subsequent gains that restore the fair value of such funds to the required level are classified as increases in unrestricted net assets.

(b) Spending Policy and Strategies Employed for Achieving Objectives

The University has adopted investment policy to provide a stable source of funds to help and support the ongoing operations and activities of the University. Pursuant to this objective, the University seeks to earn a long-term total rate of return sufficient to produce growth of endowment assets, net of spending requirements of 5%, inflation, and investment expenses.

The purpose of the endowment funds is to facilitate donors' desires to make substantial long-term gifts to the community and to develop a new and significant source of revenue for the University. In doing so, the endowment fund will provide a secure, long-term source of funds to: (a) fund special programs; (b) ensure long-term growth; (c) enhance the University's ability to meet changing community needs; and (d) support the administrative expenses of the University as deemed appropriate.

To achieve these goals, the University's spending policy utilizes the total return concept of endowment spending. Under the method adopted by the University, interest, dividends, and rents as well as appreciation on investments held by the investment pool are made available for spending. The University's total endowment fund spending is based upon a target percentage of a subset of investments. The target percentage set by the board of trustees is 5% of the average quarterly endowment balance for the prior 12 quarters. The board of trustees set endowment distribution is \$11,700 for fiscal year 2015 and \$11,100 for fiscal year 2014. The board of trustees budgeted endowment distribution is \$12,600 for fiscal year 2016.

(5) Pledges Receivable

Pledges receivable consist of unconditional promises to give and are summarized as follows at May 31:

	<u>2015</u>	<u>2014</u>
Pledges receivable	\$ 23,790	20,644
Discount to present value future cash flows	(308)	(237)
Net pledges receivable	<u>\$ 23,482</u>	<u>20,407</u>

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

The following is a summary showing the expected timing of collection of total gross unconditional pledges receivable outstanding as of May 31, 2015:

<u>Fiscal year(s)</u>	<u>Amount</u>
Less than one year	\$ 8,517
1 to 5 years	15,273
	<u>\$ 23,790</u>

(6) Financing Receivables

The University adopted Accounting Standards Updates (ASU) No. 2010-20, *Disclosure about the Credit Quality of Financing Receivables and the Allowance for Credit Losses* (Topic 310), effective May 31, 2012. This ASU is intended to provide financial statement users with greater transparency about an entity's allowance for credit losses and the credit quality of its financial receivables. This ASU amends existing disclosures and provides additional disclosures about its financing receivables on a disaggregated basis.

The University's financing receivables consist of a revolving loan fund for Federal Perkins Loans for which the University acts as an agent for the federal government and institutional loan funds created by the University to assist students in funding their education. These loans are valued based on the outstanding principal balance, less an allowance for estimated losses. Interest earned on outstanding loan balances is recorded based on the terms of the individual loan agreements and continues to accrue even when past due.

The availability of funds for loans under the Federal Perkins Loan program is dependent on reimbursements to the pool from repayments on outstanding loans. Funds held in the federal loan programs of \$8,117 are ultimately refundable to the government and are classified as a liability in the consolidated statements of financial position.

Balances of financing receivables as of May 31, 2015 consist of the following:

	<u>Perkins loans</u>	<u>Institutional loans</u>	<u>Total</u>
Gross balance	\$ 7,379	3,216	10,595
Allowances	(31)	(681)	(712)
Balance at May 31, 2015	<u>\$ 7,348</u>	<u>2,535</u>	<u>9,883</u>

ILLINOIS INSTITUTE OF TECHNOLOGY

(In thousands of dollars)

Balances of financing receivables as of May 31, 2014 consist of the following:

	<u>Perkins loans</u>	<u>Institutional loans</u>	<u>Total</u>
Gross balance	\$ 7,526	3,270	10,796
Allowances	(41)	(675)	(716)
Balance at May 31, 2014	\$ <u>7,485</u>	<u>2,595</u>	<u>10,080</u>

For each class of financing receivables, the following table presents the credit quality indicator as determined by the delinquency status of the loan as of May 31, 2015. The delinquency status is updated monthly by the University's loan servicer.

	<u>Perkins</u>	<u>Institutional</u>	<u>Total</u>
Performing	\$ 6,797	1,975	8,772
Nonperforming (defaulted)	582	1,241	1,823
Balance at May 31, 2015	\$ <u>7,379</u>	<u>3,216</u>	<u>10,595</u>

The delinquency status as of May 31, 2014 is as follows:

	<u>Perkins</u>	<u>Institutional</u>	<u>Total</u>
Performing	\$ 6,873	2,074	8,947
Nonperforming (defaulted)	653	1,196	1,849
Balance at May 31, 2014	\$ <u>7,526</u>	<u>3,270</u>	<u>10,796</u>

The aging of financing receivables as of May 31, 2015 is presented as follows:

<u>Aging</u>	<u>31-60</u>	<u>61-90</u>	<u>91+</u>	<u>Total past due</u>	<u>Total current</u>	<u>Total</u>
Perkins	\$ 239	12	684	935	6,444	7,379
Institutional	41	27	1,387	1,455	1,761	3,216
Total	\$ <u>280</u>	<u>39</u>	<u>2,071</u>	<u>2,390</u>	<u>8,205</u>	<u>10,595</u>

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

The aging of financing receivables as of May 31, 2014 is presented as follows:

Aging	31-60	61-90	91+	Total past due	Total current	Total
Perkins	\$ 132	245	665	1,042	6,484	7,526
Institutional	85	50	1,354	1,489	1,781	3,270
Total	\$ 217	295	2,019	2,531	8,265	10,796

Allowances for estimated losses are established based on prior collection experience and observed trends in the rate of default, as well as a consideration of current economic trends and indicators. Loan balances are written off when they are deemed to be ultimately uncollectible. Since student loans under the Perkins loan program can be assigned to the government when no longer collectible, a Perkins loan write-off will reduce the amount refundable to the government.

Changes in allowance for estimated losses on financing receivables as of May 31, 2015 are presented as follows:

Balance at June 1, 2014	\$ 716
Write-off	(4)
Increase reserve	—

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

(7) Physical Properties

The University's consolidated physical properties consisted of the following as of May 31:

	2015	2014
Land and land improvements	\$ 24,165	24,194
Building and building improvements	408,869	393,224
Equipment	93,085	90,359
Construction in progress	7,223	4,603
Total physical properties	533,342	512,380
Less accumulated depreciation	266,743	253,022
Physical properties, net	\$ 266,599	259,358

(8) Beneficial Interest in Perpetual Trusts

The University is an income beneficiary of certain irrevocable trusts that are held and controlled by independent trustees. The University has no equity interest in the principal of these trusts. At May 31, 2015 and 2014, the share of these trusts from which the University derives income had a combined fair value of \$21,212 and \$21,123, respectively. These trusts provided unrestricted income of \$584 and \$849 in fiscal 2015 and 2014 respectively.

(9) Notes and Bonds Payable

Notes and bonds payable consist of the following at May 31:

	Interest rate	2015	2014
University:			
IFA Bonds, Series 2006, payable in varying installments through 2036	5.00% and 6.10%	\$ 153,660	156,925
IFA Bonds, Series 2009, payable in varying installments through 2034	4.750% to 7.125%	27,915	28,645
IITRI – IFA Series 2014, payable in varying installments through 2034	Variable	9,400	10,400
Short-term line of credit	Various	14,000	14,000
Total notes and bonds payable		\$ 204,975	209,970

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

The following is a summary of required principal payments on outstanding secured obligations as of May 31, 2015:

Fiscal year ending:		
2016	\$	19,595
2017		5,860
2018		6,135
2019		6,430
2020		6,735
2021 and beyond		<u>160,220</u>
Total notes and bonds payable	\$	<u><u>204,975</u></u>

In March 2006, the University issued \$160,000 in fixed rate revenue bonds through the Illinois Finance Authority (IFA) consisting of \$153,600 (IFA Series 2006A) and \$6,340 (IFA Series 2006B). Proceeds from the bonds were used to advance refund the IEFA Series 1999 Bonds, refund the outstanding IEFA Series 2000 Bonds, refund the outstanding IEFA Series 2004 Bonds, and finance a portion of the costs of the construction, renovation, and equipping of certain of the educational facilities of the University and pay for certain expenses incurred in conjunction with the issuance of the Series 2006A and 2006B Bonds. The fixed rate on the Series 2006A Bonds is 5% with serial bonds maturing from April 2016 through 2036 and term bonds due April 1, 2031 and April 1, 2036. The Series 2006B term bond bears a 6.10% rate maturing April 1, 2015.

In July 2009, the University issued \$30,000 in fixed rate revenue bonds through the Illinois Finance Authority (IFA Series 2009). Proceeds from the bonds were used to finance a portion of the costs of the renovation of the educational facilities of the University, establish a debt service reserve fund, and pay certain costs incurred in connection with the bond issue. The fixed rates on the Series 2009 Bonds are 4.75% and 5.25% serial bonds maturing in February 2014 and 6.25%, 6.50%, and 7.125% term bonds maturing in February 1, 2019, 2023, and 2034.

In August 2004, IITRI issued an \$18,820 bond issue of adjustable rate demand debt under the tax-exempt authority of the Illinois Finance Authority (IFA Series 2004). The proceeds from the sale were used to renovate and construct lab and office space; establish a debt service reserve fund and pay certain costs incurred in connection with the bond issue. In February 2014, IITRI entered into a bond and loan agreement with the Illinois Finance Authority and North Shore Community Bank. IITRI issued a \$10,400 Revenue Refunding Bond (IFA Series 2014) that was sold to North Shore Community Bank and Trust. IITRI used the proceeds and certain other funds to refund and redeem the Series 2004 Bond. Principal payments on the Bond will commence February 1, 2015 in the amount of \$520 per year and continue until the bond matures in 2034. The interest rate is variable and reset by North Shore Community Bank on a monthly basis.

The University maintains a line-of-credit agreement that allow borrowings up to \$20,000 in 2015 and in 2014. Borrowings under the line of credit will bear interest at the prime commercial rate or adjusted LIBOR with interest being payable on a monthly basis. The borrowing under the line of credit will be payable on demand, but if no demand is made, borrowing shall automatically mature on the interest payable date next

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

following the date the loan is made. The amount outstanding under the agreement was \$14,000 as of May 31, 2015 and 2014.

The University and IITRI are subject to certain debt covenants. As of May 31, 2015, management believes those covenants have been met.

The fair value of long-term debt as of May 31, 2015 and 2014 was:

2015		2014	
<u>Fair value</u>	<u>Carrying value</u>	<u>Fair value</u>	<u>Carrying value</u>
\$ 194,043	190,975	\$ 193,562	195,970

The fair value of long-term debt is determined by quoted prices for comparable borrowings as of May 31, 2015 and 2014, which is considered to be Level 2 in the fair value hierarchy. The quoted prices are available but the assets are traded less frequently and thus valuation is accomplished using similar securities, the parameters of which can be directly observed.

(10) Accrued Postretirement Benefit Obligation

The University created a retirement incentive program for tenured faculty in November 2006. As part of the incentive program, certain medical benefits are offered to participants. A reconciliation of the plan's funded status with the accrued benefit cost reported on the consolidated statements of financial position at May 31 is presented below. The accumulated postretirement benefit obligation disclosed below is the actuarial value of future benefits used on employees' service rendered through the measurement date:

	<u>2015</u>	<u>2014</u>
Change in accumulated postretirement benefit obligation at beginning of the period	\$ 2,979	2,623
Service cost	33	
Interest cost	116	106
Actuarial gain	440	372
Actuarial benefit payments net contributions	(80)	(122)
Accumulated postretirement benefit obligation at end of the period	<u>\$ 3,488</u>	<u>2,979</u>

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

	<u>2015</u>	<u>2014</u>
Change in fair value of plan assets:		
Fair value of plan assets at beginning of period	\$ —	—
Employer contribution	80	122
Participant contributions	61	82
Total benefit payments	<u>(141)</u>	<u>(204)</u>
Fair value of plan assets at end of the period	\$ <u>—</u>	<u>—</u>
Funded status	\$ 3,488	2,979
Composition of amounts reported in the consolidated statements of financial position consist of:		
Current liabilities	\$ 161	160
Noncurrent liabilities	<u>3,327</u>	<u>2,819</u>
Accrued postretirement benefit obligation	\$ <u>3,488</u>	<u>2,979</u>

In fiscal year 2008, the University adopted FASB ASC Section 715 Subtopic 60, *Defined Benefit Plans – Other Postretirement*. The accumulated charge to unrestricted net assets consists of amounts that have not yet been recognized in net periodic benefit cost at May 31 are as follows:

	<u>2015</u>	<u>2014</u>
Unrecognized actuarial loss	\$ 1,195	792
Unrecognized prior service costs	2	14

These amounts will be subsequently recognized in future years as components of net periodic pension cost. The estimated amortization of transition obligation, prior service cost, and net losses in the next fiscal year is \$0, \$12, and \$37, respectively.

The components of net periodic postretirement benefit cost for the years ended May 31 are as follows:

	<u>2015</u>	<u>2014</u>
Service cost	\$ 33	—
Interest cost	116	106
Amortization of prior service cost	<u>12</u>	<u>12</u>
Net periodic postretirement benefit cost	\$ <u>161</u>	<u>118</u>

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

(a) Actuarial Assumptions

The weighted average assumptions used in the accounting for the postretirement plan for the years ended May 31 are shown below:

	2015	2014
Discount rate (expense)	4.00%	4.15%
Discount rate (obligation)	4.02	4.00
Healthcare cost trend rates:		
Healthcare cost trend rate assumed for next year	7.60	7.75
Ultimate rate	5.00	5.00
Year that the ultimate rate is reached	2023	2025

Assumed healthcare cost trend rates have a significant effect on the amounts reported for healthcare plans. A one-percentage point change in assumed healthcare cost trend rates would have the following effects for the fiscal years ended May 31:

	2015	2014
Effect on total service cost and interest cost:		
One-percentage point increase	\$ 18	12
One-percentage point decrease	(16)	(10)
Effect on year-end postretirement benefit obligation:		
One-percentage point increase	\$ 412	315
One-percentage point decrease	(352)	(273)

(b) Estimated Future Benefits Payments

The following benefit payments, which reflect expected future service, are expected to be paid for each of the fiscal years ending May 31:

Fiscal year:		
2016	\$	161
2017		163
2018		178
2019		191
2020		203
2021–2024		1,102

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

(c) Plan Amendment

Effective August 1, 2007, the plan was amended to eliminate post-65 benefits for all retirees, both current and future. There was also a group of faculty participants who were offered a special option under which the University would reimburse their premiums for post-65 retiree coverage. This special benefit option was only available through May 31, 2008. Participants had to sign up by this date in order to participate.

(11) Net Assets

Certain unrestricted net assets are designated for specific purposes by the board of trustees of the University and are summarized as follows at May 31:

	<u>2015</u>	<u>2014</u>
Endowments		
Board designated	\$ 54,647	54,340
Donor restricted	(11,075)	(11,331)
Endowments total	<u>43,572</u>	<u>43,009</u>
Undesignated		
Unrestricted for university operations	(43,010)	(47,845)
Loan Fund	5,709	6,102
Net investment in plant	68,350	65,139
Undesignated total	<u>31,049</u>	<u>23,396</u>
Total	<u>\$ 74,621</u>	<u>66,405</u>

Donor restrictions on temporarily restricted net assets consist of the following at May 31:

	<u>2015</u>	<u>2014</u>
General operations	\$ 17,117	10,638
Endowment	15,544	17,078
Donor-designated for plant	11,139	17,625
Scholarships	2,287	1,727
Split-interest annuity agreements	910	932
Total	<u>\$ 46,997</u>	<u>48,000</u>

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

Permanently restricted net assets consist of the following at May 31:

	2015	2014
Endowment	\$ 176,342	171,536
Endowment pledges	5,295	8,360
Donor-restricted revolving loan funds	3,827	3,827
Split-interest annuity agreements	1,070	2,338
Beneficial interest in perpetual trusts	21,212	21,123
Total	\$ 207,746	207,184

The amount of outstanding loans from quasi-endowments to unrestricted funds is \$4,090 and \$4,296 at May 31, 2015 and 2014, respectively.

(12) Employee Benefit Plans

(a) Pension Plan

Substantially all full-time employees of the University and IITRI are participants in defined contribution retirement plans that are funded by contributions from the University, IITRI, and participating employees. Total contributions made under the plans for the years ended May 31, 2015 and 2014 were \$7,238 and \$6,650 by the University and \$358 and \$350 by IITRI, respectively.

(b) Healthcare Benefits Plans

The University maintains a healthcare benefits plan (the Plan) that provides for certain major medical, surgical, and other benefits for all eligible employees and dependents. The Plan is partially self-funded by the University, subject to stop-loss arrangements. Under this Plan, the University makes contributions to cover benefits not funded by employees, limited by stop-loss amounts.

IITRI offers a healthcare benefits plan (the Plan) that provides for certain medical and dental expense coverage, including certain vision discounts for all eligible employees and dependents. The Plan is fully insured and underwritten by Blue Cross Blue Shield of Illinois and Dearborn National. Under this Plan, premium contributions are shared by both IITRI and plan participants.

(13) Functional Classification of Expenses

Operating and nonoperating expenses are reported in the consolidated statements of activities by natural business category. The University's primary program services are instruction and research. Expenses reported as academic support, student services, institutional support, and auxiliary enterprises are incurred in support of these primary program services.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

Consolidated expenses by functional classification are as follows for the years ended May 31:

	<u>2015</u>	<u>2014</u>
Instruction	\$ 82,012	76,836
Research and other grant activities	77,129	70,591
Academic support	20,800	21,322
Student services	20,453	19,344
Institutional support	55,734	59,479
Auxiliary enterprises	21,430	20,255
Total	<u>\$ 277,558</u>	<u>267,827</u>

The university utilized a new basis for allocating interest, operations and maintenance in fiscal year 2015. The fiscal year 2014 functional classifications were restated based on the new allocation basis.

(14) Leases

In December 1999, the University leased its undeveloped property, located at 32nd Street between Michigan Avenue and Indiana Avenue, to Michigan Place LLC for a term of 100 years. The agreement requires Michigan Place LLC to pay the University \$815 in total lease payments. The University has received these payments.

In May 2002, the University entered into a 40-year ground lease agreement with IIT State Street, NFP (State Street Corp) to lease property on the University's campus for the purpose of building housing to lease to students, faculty, and staff of the University or employees of other not-for-profit educational institutions in the area. IIT State Street, NFP is a 501(c)(3) corporation that is affiliated with, but not controlled by, the University and, accordingly, is not included in the University's consolidated financial statements.

In December 2003, the University entered into a five-year operating lease with State Street Corp whereby the University committed to lease unoccupied beds at the leased property sufficient to allow State Street Corp to achieve a debt service ratio of 1.0. On August 30, 2006, the operating lease was amended to extend the expiration date to September 30, 2013; thereafter, the operating lease will automatically renew for successive one-year periods. For years ended May 31, 2015 and 2014, it was not necessary for the University to lease unoccupied beds due to State Street Corp achieving a 1.0 debt service ratio.

In January 2006, the University entered into a 55-year ground lease agreement with Townsend Chicago, LLC (Townsend). Townsend purchased from IIT the building known as the Technology Business Center for \$2,600 resulting in a gain of approximately \$2,400, which is being amortized over the life of the building lease. IIT is leasing approximately 21% of the building back from Townsend for an initial term of 18 years.

In January 2007, the University entered into a five-year space rental lease with 350 LLC, which expired on August 31, 2012. In May 2011, the University extended the lease for an additional five years, so the new expiration date is now August 31, 2017. The lease involves occupying space in the building located at 350 North LaSalle.

ILLINOIS INSTITUTE OF TECHNOLOGY

Notes to Consolidated Financial Statements

May 31, 2015 and 2014

(In thousands of dollars)

In March 2010, the University entered into a seven-year agreement to lease additional space of the Technology Business Center, which was effective June 2010. Related to this University's agreement, Townsend and the University agreed to establish a charitable donation to offset the University's expenses attributed to the agreement until May 2013. In June 2013, the University began funding the lease payments with University funds.

In May 2012, the University entered into an agreement with Chicagoland Entrepreneurial Center for space on the twelfth floor of the Merchandise Mart through April 30, 2013. Prior to its expiration, the University elected to exercise its option to extend the agreement through June 30, 2017.

The University also entered into an agreement with Academic Analytics, LLC for the use of a Web-based data portal to access content and tools of the database. The terms of the agreement extend to June 30, 2016.

A schedule of current and future operating lease commitments under these lease obligations are as follows:

Year ending May 31:	
2015	\$ 2,146
2016	2,137
2017	973
2018	961
2019	985
2020	1,009
Thereafter	<u>5,560</u>
	<u>\$ 13,771</u>

(15) Contingencies

The University is a defendant in legal proceedings arising in the ordinary course of its business. Although the outcome of these proceedings cannot presently be determined, in the opinion of management, disposition of these proceedings will not have a material adverse effect on the financial position of the University.

(16) Subsequent Events

In connection with the preparation of the consolidated financial statements and in accordance with FASB ASC Section 855, *Subsequent Events*, management evaluated subsequent events after the statement of financial position date of May 31, 2015 through October 22, 2015, which was the date the consolidated financial statements were issued.

Independent Auditors' Report on Supplementary Information

The Board of Trustees
Illinois Institute of Technology:

We have audited the consolidated financial statements of Illinois Institute of Technology as of and for the year ended May 31, 2015, and have issued our report thereon dated October 22, 2015, which contained an unmodified opinion on those consolidated financial statements. Our audit was performed for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information included in Schedules 1 through 3 is presented for the purposes of additional analysis, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.
